

# Akash Dey

## Full-Stack Web Developer

I am a Full-Stack Web Developer with a strong foundation in HTML, CSS, JavaScript, PHP, and WordPress development. Although I have completed my SSC, I have developed a deep interest in web development, and I have spent a considerable amount of time learning and practicing various web technologies. I have built personal and freelance projects, including custom WordPress themes, responsive websites, and interactive applications using frameworks like React. My skills also include debugging, optimizing website performance, and working with APIs. I am continuously improving my technical skills and keeping up with the latest trends in web development.

### Websites, Portfolios, Profiles

- [github.com/Akashdey99](https://github.com/Akashdey99)

### Skills

#### Web Development:

- HTML, CSS, JavaScript
- PHP

### Professional Experience

#### creating WordPress plugins

*For Personal Development and Practice., Dhaka*

- Maximized client engagement by incorporating interactive features such as forms, quizzes, surveys, and multimedia elements into WordPress designs.
- Optimized website performance through regular updates, security audits, and bug fixes to ensure a smooth user experience.
- Troubleshoot complex issues, resolving client concerns while maintaining a professional demeanor during high-pressure situations.
- Enhanced user experience with responsive web design techniques for seamless mobile browsing.

#### Self-Developed Projects

Developed a personal blog using WordPress, where I designed the theme, added custom functionality with PHP, and integrated various plugins to enhance the user experience.

#### Freelance Experience

Worked on multiple freelance WordPress projects, developing custom themes and plugins for small

- WordPress (Theme and Plugin Development)
- React (Basic knowledge)
- AJAX, Bootstrap, CSS (Flexbox, Grid)
- GitHub (Version Control)

**Problem-Solving:**

- Debugging and troubleshooting code issues
- Optimizing website performance (page load time, SEO, etc.)

**Database Management:**

- MySQL (for WordPress, PHP, and custom applications)

**Responsive Design:**

- Creating mobile-friendly and responsive web pages using flexbox, Grid, and Bootstrap

**API Integration:**

- Working with third-party APIs (Weather APIs, Google Maps, etc.)

**Soft Skills:**

**Time Management:**

- Ability to manage multiple projects and deadlines effectively

**Communication:**

- Ability to work in teams and communicate effectively with clients and stakeholders

**Attention to Detail:**

- Ensuring code quality and a smooth user experience across devices

**Continuous Learning:**

businesses, ensuring responsive design and user-friendly features.

**Open Source Contributions**

Contributed to open-source WordPress plugin development by submitting bug fixes and feature enhancements

**Technical Challenges Solved**

Optimized website performance by reducing page load time by 40% through efficient coding practices and implementing caching mechanisms

**Learning New Skills**

Learned and implemented ReactJS for building interactive user interfaces, completing several tutorials and small projects to solidify my understanding

**Collaboration and Teamwork**

Collaborated with other developers to create a responsive e-commerce website, ensuring proper front-end and back-end integration using JavaScript and PHP

**Soft Skills**

Developed strong time management skills while balancing multiple self-driven projects and learning new technologies.

**Education**

2012-04

**SSC (Secondary School Certificate):  
Commerce**

Dhanmondi Govt. Boys High School - Dhanmondi, Bangladesh

- [\[Number\]](#) Minimum Average

- Enthusiastic about learning new technologies and staying updated with industry trends
